

Strategic-sector trade concentrates in single origins — the chokepoints are named, not notional

Named chokepoints

top-origin share of world exports, 2024

NdFeB magnets	63%	CHN
Li-ion cells	59%	CHN
memory ICs	37%	KOR
wafer-fab equip.	26%	NLD
logic ICs	21%	TWN
Li carbonate	74%	CHL

layers (top-15 edges each)

- semiconductors
- critical minerals
- batteries
- pharma APIs
- aerospace

no edge in any layer's top-15:

node area = strategic-layer trade strength, 2024
